

### Early Falling Off in Prices Is Followed by Rebound and Then a Reaction

New York, Sept. 21.—The stock market was under pressure at the outset of today's session, oils and motor accessories displaying marked weakness. Mexican Petroleum and Royal Dutch reacted 2 points each and Shell Transport and Trading 1 point. The market made a precipitate decline of 7 points and United States Rubber lost 1 point. Central Leather, in which a change of dividend rate was expected, surged 1 point. American Tobacco and American Industrial Alcohol and rails were moderately lower. American Tobacco Securities was the only strong issue, rising 2 points. Early quotations for foreign exchange pointed to another serious decline in the rate.

Trading during the morning bore the marks of a concerted bear raid, especially among oils, motor specialties

and coppers in which initial gains were extended. Crucible Steel, after falling 1-1/2 points in the general reversal, led an irregular rally before noon, rebounding 5-1/2 points and reflecting recoveries of 1 to 2 points in other stocks. The rally was supported by a number of consistently strong issues including American Tobacco, Retail Stores, Great Northern Ore, American Smelting, General Electric and High Land. Thereafter, the market continued dull at nominal changes. Precious metal and British exchange relaxed slightly and call money opened at 7 per cent.

The market made further upward progress at midday, rails reasserting their recent leadership at gains of 1 to 2 points. Another sharp reaction ensued, however, on the announcement that the U. S. Central Leather Co. common dividend, that stock breaking three points.
